Charles Hayward Foundation UK

Sunday, 01 July 2007
Last Updated Wednesday, 28 September 2011

The Charles Hayward Foundation is a grant-making charitable trust which is located in the UK.

Area: UK

Amount Available: The Small Grant Fund: Maximum £5,000

In their other programmes, grant sizes are typically from £10,000 to £25,000 one-off grant. Where agreed, project funding may be granted for a maximum of three years in duration, and will be tapered downwards if appropriate. Project funding may be up to £15,000 per year over three years.

Purpose:

The Foundation sees the value in supporting activities which have been demonstrated to work and can be replicated; The Foundation seeks to increase self-determination and independence in individuals and groups.

Criteria: They predominantly fund capital costs. Occasionally, project funding may be offered for start-up or development activities where these are not part of the on-going revenue requirement of the organisation. They:

- prefer that the area of impact is at the community and neighbourhood level.
- place great emphasis on funding projects that are developmental or innovative.
- would like to enable things to happen that would not otherwise happen.
- refer funding a project in its early stages rather than finishing off an already well supported appeal.
- also value projects that are preventive or provide early intervention.
- also wish to promote good practice.

-

would like to help with the development of solutions to society's problems and help to expand the take-up of these solutions where they are most needed.

Who Can Apply

They make grants to charities and charitable organisations which are registered in the U.K Only to charities with an annual turnover of less than £250,000.

How To Apply

Check website for further guidance within their guidelines including guidance on exclusions.
